

# Notice of Final Public Meeting to be held by Samsung Renewable Energy Inc. and Pattern Energy Regarding a Proposal to Engage in a Renewable Energy Approval

**Project Name:** South Kent Wind Project

**Project Applicant:** Samsung Renewable Energy Inc. and Pattern Energy

**Project Location:** The Project is located south of Highway 401 between the Towns of Tilbury and Ridgetown (refer to draft site plan figure below) to the west and east, respectively, within the Municipality of Chatham-Kent in southwestern Ontario.

**Dated At:** The Municipality of Chatham-Kent this the 26th of July, 2011

Samsung Renewable Energy Inc. and Pattern Energy (hereinafter referred to as the "Proponent") are planning to engage in a renewable energy project in respect of which the issuance of a Renewable Energy Approval (REA) is required. The proposal to engage in the project and the project itself is subject to the provisions of the Environmental Protection Act (Act) Part V.0.1 and Ontario Regulation 359/09 (O. Reg. 359/09 as amended under O. Reg. 521/10 (January 2011)). The notice must be distributed in accordance with section 15 of the Regulation prior to an application being submitted and assessed for completeness by the Ministry of the Environment.

The Final Public Meeting is being held to provide information on the proposed project. The Public Meeting will be an open house format.

## Meeting Location:

**Date:** Saturday September 24, 2011

**Time:** 2:00 pm to 5:00 pm

**Place:** Tilbury Memorial Arena, Ryder Hall, 55 Bond Street, Tilbury, ON

## Project Description:

Pursuant to the Act and Regulation, the facility, in respect of which this project is to be engaged in, is a Class 4 Wind Facility. If approved, this facility would have a total maximum nameplate capacity of up to 270 MW. The project location is shown in the map below.

The Draft Project Description Report titled *Draft Project Description Report* describes the Project as a Class 4 Wind facility with a nameplate capacity of up to 270 MW consisting of approximately 130 wind turbines, as well as supporting infrastructure, including access roads, buried cables and overhead collector lines to generate electricity. A 34.1 km 230 kV transmission line and two (2) substations are required to step the voltage from 34.5kV to 230 kV to enable connection to the Chatham Switching Station (SS). A written copy of the Draft Project Description Report was made available for public inspection on October 21, 2010 at [www.southkentwind.com](http://www.southkentwind.com) and at the local municipal office. Further the applicant has prepared supporting documents as per Ontario Regulation 359/09.

Written copies of the draft supporting documents will also be made available for the public inspection on Tuesday July 26, 2011 at [www.southkentwind.com](http://www.southkentwind.com) and at the following locations:

Municipality of Chatham-Kent, Civic Centre  
315 King Street West  
Chatham, ON

Blenheim Library  
16 George Street  
Blenheim ON

South Kent Wind Project Office,  
c/o Pattern Energy PO Box 1630  
57 Talbot St. W, Blenheim, ON N0P 1A0

Tilbury Library  
2 Queen Street  
Tilbury ON
